DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joe McKinney Mundy on June 9, 2004.

The application has been amended as follows:

Cancel non-elected claims 1 – 8.

Change the title to read, "Method for Fabricating Semiconductor Device with Loop Line Pattern Structure".

Delete the last sentence of the Abstract, which reads, "By using the alternating phase shift mask to pattern gate-lines or active areas in a DRAM array, no unwanted image is created in the DRAM array and only one exposure is needed to achieve high resolution requirement."

Allowable Subject Matter

2. Claims 9 and 10 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach, alone or in combination, a method of manufacturing DRAM chips including providing an alternating phase-shift mask with opaque lines having a dark loop and a portion enclosed and defined by the dark loop.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
